

St Peter Chanel

Catholic Primary School, The Gap

Sun Safety

POLICY STATEMENT

Catholic education at St Peter Chanel School has its foundation in partnerships between staff, students, parents, parish and the wider community. These partnerships are essential in order to build and sustain a faith community where life long and life giving education takes place. We are committed to ensuring the health and well-being of students whilst under our care. This care extends to helping students to manage protecting their skin from the sun.

RATIONALE AND GUIDING PRINCIPLES

Queensland has the highest rate of skin cancer in the world. Two out of every three Queenslanders will develop some sort of skin cancer in their lifetime. Research suggests that at least two-thirds of all melanomas occurring in Australia could be prevented if children were protected from the sun during their first 15 years.

Skin damage, including skin cancer, is the result of cumulative exposure to the sun. Research shows that severe sunburn contributes to skin cancer and other forms of skin damage such as sunspots, blemishes and premature ageing. Most skin damage and skin cancer is therefore preventable.

Ultraviolet radiation (UVR) levels are highest during the hours that children are at school.

With this in mind St Peter Chanel School realises the need to protect children's skin and educate them about SunSmart behaviour, thus reducing the risk of skin damage from exposure to the sun.

AIMS

The policy aims to:

- provide ongoing education that promotes personal responsibility for skin cancer prevention and early detection.
- provide environments that support SunSmart practices.
- create an awareness of the need to reschedule work commitments and outdoor activities to support SunSmart practices.

PROCEDURES

Our school recognises that winter sun also contributes to skin damage. The implementation of this policy will therefore be conducted throughout the year.

The purpose of the SunSmart policy is to ensure that all children attending our school are protected from the harmful effects of the sun throughout the year.

Our commitment

St Peter Chanel School will:

- ✓ inform parents of the SunSmart policy when they enrol their child.
- ✓ include the SunSmart policy statement in the school prospectus / on the school website .

- ✓ increase the amount of shade in the school grounds, where possible, by building shelters and planting trees.
- ✓ incorporate education programs that focus on skin cancer prevention into the school curriculum.
- ✓ encourage all teachers and staff to act as positive role models for children in all aspects of SunSmart behaviour.
- ✓ seek ongoing support from parents and the school community for the SunSmart policy and its implementation, through newsletters, parent meetings etc.
- ✓ ensure that all students and staff wear hats that protect the face, neck and ears, and SPF 30 or higher, broad-spectrum, water-resistant sunscreen, when involved in outdoor activities. Students will have the opportunity to apply sunscreen during the school day.
- ✓ encourage students without adequate sun protection to use shaded or covered areas at recess and lunch times.
- ✓ ensure the school uniform conforms with the Queensland Cancer Fund SunSmart clothing guidelines.
- ✓ incorporate a SunSmart swimwear into school 'uniform expectations', eg sun shirt / rashie to be worn during swimming / aquatic activities.
- ✓ ensure that, wherever practicable, outdoor activities take place before 10am or after 3pm (Australian Eastern Standard Time [AEST]).
- ✓ ensure that adequate shade is provided at sporting carnivals and other outdoor events.
- ✓ review the SunSmart policy annually.

Our expectations

Parents/carers will:

- provide a SunSmart hat for their child and ensure that they wear it to and from school. The Queensland Cancer Fund recommends the following hats:
 - 8-10cm broad-brimmed
 - legionnaire-style
- ensure that their child applies SPF30 or higher, broad-spectrum, water-resistant sunscreen 20 minutes before leaving for school.
- ensure that their child's clothing provides adequate protection from UVR. The Queensland Cancer Fund recommends clothing that has the following features:
 - dark-coloured
 - collars and sleeves
 - closely woven fabric
 - natural fibre
- act as positive role models by practising SunSmart behaviour.
- support the school's SunSmart policy and help to design and regularly update the policy.

Students will:

- be aware of the school's SunSmart policy.
- take responsibility for their own health and safety by being SunSmart.
- comply with SunSmart rules and guidelines by wearing suitable hats, clothing, sunscreen and sunglasses.
- apply SPF 15 broad-spectrum, water-resistant sunscreen 20 minutes before going outdoors.
- act as positive role models for other students in all aspects of SunSmart behaviour.
- help to design and regularly update the SunSmart policy.
- participate in SunSmart education programs.
