

NAPLAN 2018 – Results Summary

(Compiled by Margo)

In summary... Across all areas, in all year / grade levels tested, the St Peter Chanel School mean is consistently higher than the Queensland and Australian average. The number of students performing at the National Minimum Standards is very low. Our students have demonstrated very strong achievement in the top bands, with the following percentages of students performing at the National Minimum Standard (NMS) + 3 or higher.

Percentage of Students Who Demonstrated Very Strong Achievement in the Top Bands National Minimum Standard (NMS) + 3 or higher...		
Domain	Year 3	Year 5
Reading	52.7%	37.5%
Writing	40.5%	11.3%
Spelling	46.1%	30.4%
Grammar and Punctuation	48%	34.9%
Numeracy	37.9%	26.9%

We need to recognise the results of *all* our students, individually and collectively, and support their learning to maximise progress.

Where to next... Our challenge is to use this data wisely to inform our teaching and learning. In the next few months, staff will take time to look more closely at individual and cohort results. We will have conversations across year levels which will help us to understand both the individual student stories as well as the school curriculum stories which the data can tell, not just from this year's NAPLAN results, but also across data from past years.
